Leonardo HPD 200 Watt Dual - 980nm/1470nm

The Leonardo® HPD 200-watt Dual Wavelength Laser is the sports car of High-Powered Diode Lasers. The Leonardo® offers the same performance characteristics as its parent model the Evolve HPD 200-watt Dual. The Leonardo® is a laser system with functionality and ergonomics specifically designed for multi-specialty applications. Leonardo provides up to 200-watts of combined 980nm/1470nm energy, or the physician can select the desired wattage and mixture using the Touch Screen Interface and the whole system only weighs 29lbs. The Leonardo is cleared for sale by the FDA and uses the same high quality family of fibers for applications in Urology, ENT, Pulmonology, Gastroenterology, Colorectal, Dermatology and Gynecology. Call us to try it out.
